# Rudy Mück Trombones

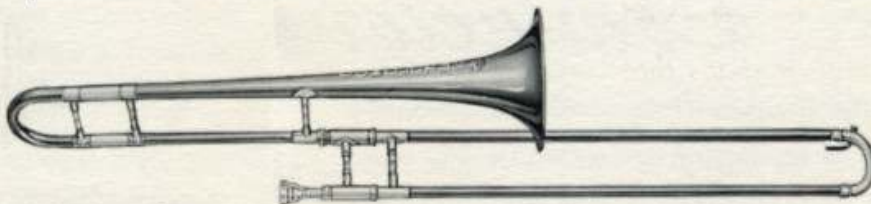

Mück slides, drawn through Carboloy dies, are perfectly straight. Lapping in the playing position results in smooth, noiseless and frictionless slides that need no breaking in.

Gadgets and extra trim have been avoided for the sake of lightness and flexibility. Tested, designed and approved by America's finest Trombonists.

RUDY MÜCK

## Academy

Never before has an instrument of this superb quality been offered at so low a price. Identical in bore to the higher priced Mück instruments, the only basic difference is a slotted valve instead of a box valve. In performance, tone, intonation and perfection of construction, the Academy model will play as perfectly as any instrument made. Complete in Gladstone case.
