

# Peacemaker Music Products

## Houston, Texas

This mute was found at an auction site in 2022, but there is very little that I could find on it. If anyone knows more, please let me know.

One address found was a residence at 9742 Railton St in Houston. A second address found was a commercial site at 6110 Wilwee St, #B, in Houston. This second one had an established 1992 date attached to it as well as a "Closed 1993" note.

This says "patented", but I have found no patent for this.
